

Infection Prevention and Control Conference for Adult Social Care

Thursday 28 November 2024, 2 - 4.15pm

Conference topics include:

- Gram negative bacteraemia in the local community
- Urinary Tract Infections - prevention, diagnosis and management
- Why providing good hydration is a fundamental requirement of healthcare
- Diagnostic stewardship (improving the decision to start antibiotics) - the important roles of nursing and care staff

This event will be of interest to individuals working in adult social care settings in North West London, including care homes, supported living, private care and hospice care. The event will also be of interest to GPs and those supporting staff in care homes.
