

The Importance of Prompt Intervention & Effective Management in COPD Care

Clinical Talk

Join Dr Sundeep Kaul, Consultant in Critical Care & Respiratory Medicine and Lead Respiratory Consultant at Harefield Hospital, for a focused session on advancing COPD care through early intervention and treatment optimisation.

Chaired by Darush Attar-Zadeh, Clinical Fellow Respiratory Pharmacist at NWL ICB and Vice Chair of the Primary Care Respiratory Society (PCRS), the session will cover:

- **Early Intervention:** How timely action can change the course of COPD
- **Treatment Optimisation:** Best practices for LABA/LAMA, ICS/LABA, and multiple inhaler therapies
- **Real-World Challenges:** Practical tools for overcoming barriers in COPD care
