

# Primary Care Education:

## Overview:

RM Partners have listened to feedback from primary and secondary care professionals on the support we can provide you and our patients.

The outcome is a funded collaboration with GatewayC (a GP education organisation with a wealth of experience), GP Cancer Leads and Secondary care clinicians to develop and deliver high quality bitesize learning resources.

The suite of **free** resources on the topics on the right include:

- Live and on-demand 30 minute webinars (please see dates and times to the right)
- 7-10 minutes videos
- Top tips documents
- Access to a suite of additional learning resources including podcasts and additional tumour types.

This suite of resources are relevant for all who are responsible for referring patients on an urgent suspected cancer pathway; for example: GPs, ANPs, Physician Associates, Clinical Pharmacists etc.

To sign up; please click here: [RM Partners Cancer Resources - GatewayC](#) or scan the QR code.

Please 'select' the wording as detailed below, if you wish to be sent more training opportunities in the future.

I am happy for my information to be shared with RM Partners Cancer Alliance so I can be sent educational content that is relevant to my role (RM Partners Privacy Policy: <https://rmpartners.nhs.uk/privacy-policy>)
