

Royal National Orthopaedic Hospital Paediatric Musculoskeletal study day

30th June 2025 8.30-17.00

Charles Lack theatre, Education centre, Royal National Orthopaedic Hospital, Stanmore.

The RNOH is a leading world class centre for treating children with musculoskeletal disorders. The conditions we specialise in are often difficult to manage, can fall through specialties and are not widely understood. Patients we see have often had difficult journeys through the NHS.

Aims

- ▶ Join us for an educational day focussed on musculoskeletal issues in children
- ▶ Aimed at Paediatricians, GPs, orthopaedic surgeons
- ▶ Talks by leading national expert paediatricians, rheumatologists and orthopaedic surgeons.
- ▶ Learn and gain resources to manage tricky conditions and know when to refer
- ▶ Network with your national and local centre to improve pathways for your patients

Topics

- ▶ Juvenile Idiopathic arthritis
- ▶ Hypermobility spectrum disorder
- ▶ Chronic regional pain syndrome
- ▶ Benign and malignant bone and soft tissue tumours
- ▶ Metabolic bone conditions for the generalist - when to investigate recurrent fractures
- ▶ Paediatric Orthopaedics for medics – DDH/ Perthes/ SUFE/ Valgus/Varus deformities / Pectus/Normal variants
- ▶ Scoliosis
- ▶ Chronic Non bacterial Osteitis (aka CRMO)

£80 Consultants/GPs £40 Trainees/AHPs
