

LONDON REGION COMMUNITY OF
PRACTICE FOR COVID-19 AND FLU
VACCINATIONS

This session will focus on opportunistic vaccinations

This month we've lined up some fantastic speakers

- Miranda Willis will provide a fascinating insight into initiatives to increasing vaccination uptake amongst individuals who would not otherwise have engaged with vaccination services within an inpatient and outpatient setting.
- Dr Muhammed Waqqas Navqui and his colleagues will be sharing their experiences on the recent outreach work in Newham, Waltham Forest & Tower Hamlets using a holistic healthcare approach.

They'll also be available to answer any questions you may have.

Please share this invite with colleagues across your networks, including vaccinators, ICBs, commissioners, and providers.

We'd love to see as many of you as possible at the session!

Thursday, 28 November 2024
12:30 to 13:45
